## ABOUT TOWN.

### Washington Day.

The Mexican flag was hoisted by Consul Barragan today, in honor of Washington's birthday.

The schooners Olga and C. H. Moore sailed from Brazos Santiago at seven o'clock this morning.

License to wed was issued by County Clerk Webb yesterday to Juan Rodriguez and Luisa Cavazos.

**AMERICA'S** Greatest Medicine is Hood's Sarsaparilla, because it possesses unequalled curative powers and its record of cures is **GREATEST**.

The deed of transfer of the land sold by Victoriano Fernandez to C. Lindsay was filed for record today. This sale was made by Geo. Chazapion, the real estate rustler.

A fine, thoroughbred hound belonging to Dr. L. F. Layton was brought in night before last from Alice. There were two of them shipped from Alice, but one was lost en route in some way. The doctor is much grieved at losing one of the pair, as he raised the dogs himself and valued them both very highly. They were shipped in crates.

Engineer Carlisle is mourning the loss of a watch which was stolen from him this morning at Villa Nueva. Mr. Carlisle is engaged in erecting the machinery at the pump house, and while at work took off his vest, with the watch in one of the pockets, and hung it up near by. When he went for it, the watch was missing. The police were notified of the theft, and are on the look out for the light-fingered one that appropriated the watch.

There is talk of the new contractor for the Alice and Brownsville mail, Jas. A. Browne, putting on automobiles, instead of using ambulances and teams. If found practicable and not too expensive, Mr. Browne will probably adopt the automobiles. It is greatly to be hoped that he may be able to do so, as it would shorten the time between Alice and Brownsville to about twelve hours, whereas the present schedule requires about thirty-six hours. It would be almost as good as railroad connection. It is believed that the government might be induced to increase the pay for the auto service. It surely *auto*, for such an improvement would be worth double the present contract price.

### Col. Bringas Entertained at Fort McIntosh

Laredo Times: On the 22nd, Col. Bringas, the military commander of Nuevo Laredo and his staff will be the guests in this city of Major Guilloyle, commander of Fort McIntosh and his staff. There are now ten officers at Fort McIntosh and the number of Mexican officers in Nuevo Laredo are between twelve and fifteen. This will be an interesting feature.

## PURELY PERSONAL.

The Alice Echo says: Maj. J. B. Armstrong came in Monday from his Cameron county ranch and reports that entire country in fine shape.

Second Lieutenant Augustus F. W. MacMannus, Twenty-fifth Infantry, reported for temporary duty at Fort Sam Houston Monday.—San Antonio Express.

Alfonso Champion, telegraph operator at Santa Maria, and Leonardo Villareal came in from that place last night and went down to the Point this morning.

Herbert Dennett, son of Mr. and Mrs. W. F. Dennett, arrived home by last night's stage from Austin, where he has been attending a preparatory school, in order to matriculate in the State University.

Mrs. Albert Welhener, nee Krausse, of Kansas City, arrived by the Alice stage last night to spend a short time visiting her relatives here. This is Mrs. Welhener's first visit to her old home since her marriage. She is warmly welcomed by her numerous girlhood friends.

Mr. and Mrs. Fred W. Truitt, who have been the guests of Mr. and Mrs. Benjamin Kowalski the past week, expect to leave tomorrow on their return to San Antonio. Their numerous old friends here sincerely hope they may yet decide to return and make their home in Brownsville again.

### The Maris Case.

Washington, D. C., Feb. 18.—It appears that the troubles of Charles H. Maris are not at an end, notwithstanding the fact that the Senate committee on commerce has made a favorable report on his renomination as collector of customs at Brownsville. It is stated that the charges against him will be considered by the Senate as a whole and that a hard fight will be made against him, although no one doubts that he will eventually be confirmed.

The charges in question were first investigated by the attorney of the Western Texas district and a special agent of the Treasury Department, then by the President and the Treasury Department and later by the Senate committee on commerce.

The matter has been hanging fire for several weeks, during all of which Maris has been here looking after his interests.

## GRULLA WHIM-WHAMS.

Someone Steals Soltero's Herald From the Mails—Other Items.

To THE HERALD.

Grulla, Tex., Feb. 16.—I believe I wrote you a letter on the 2nd, instant, and it should have come out on the 6th. I have failed to receive this number, and beg you to send me an extra copy.

There is something wrong in the post, I believe. Wednesday last I only received one HERALD, of the 8th.; Friday I got four, of the 10th., 11th., 12th., and 7th. inst., but none of the 6th. Shake up the authorities.

You mustn't expect a long letter, as I have a terrible cold and feel wretched.

After two weeks of cloudy weather, the skies cleared on the 12th., and since then we have been having sunny, pleasant days. The mornings are cool and foggy, but the afternoons delightful.

I learn that a daughter of Gregorio Duffy, our worthy tax collector, died in town yesterday. She was about 13 years old, and died after being ill quite a while.

You say in THE HERALD that Mr. Shely and Jacobo Guerra have the mail contract to Hidalgo for \$650. This is a mistake. Mr. R. Langley has that contract. Messrs. Shely and Guerra have the mail contract to El Sordo, Starr Co., only. I gave you the facts some time ago.

There is some planting of corn going on. My English friend has in 18 almonds and intends to plant nine more. Most of the people are planting small quantities only.

The winter has been unusually mild. Save a heavy frost in December that killed off the cotton and other tender plants, we have had no frosts. The castor oil plants are shooting up from the roots, or seeds, and have five or six leaves. Foster predicts very cold weather at the end of the month. I hope no freezing weather may come.

I have another story of the old sow, and one or two items, but I shall have to postpone 'em.

### The Royal Mound and the Royal Disease.

Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its banches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probable not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost a serious and as much to be feared as its near relative, consumption.
